

# River's Edge Explorers

## a BNC homeschool program for middle to high school students

As kids get older and schedules become packed with sports, lessons, and more it is easy to forget to find time to get them outside exploring and learning. The “**River's Edge Explorers**” provides the opportunity for middle to high school aged virtual or homeschool students to join their peers in discovery at Brukner Nature Center's River's Edge property located on the corner of Calumet Rd. and St. Rt. 48 north of West Milton. One class each season of fall, winter, and spring we will learn how various species of native Ohio wildlife interact and survive within their environment by exploring the various habitats the land provides us including meadow, forest, creek, and anywhere else the search guides us!

### Register your 12 – 17 year-old virtual or homeschooled students to come explore the seasonal changes at our River's Edge Wildlife Preserve!
